In 2022 & so far in 2023, Depave has engaged over 380 volunteers for a total of over 930 volunteer hours in removing asphalt, installing native plants, and supplemental construction.

In 2022 & so far in 2023, we depaved 21,854 square feet of pavement and reduced annual stormwater runoff by about 571,826 gallons. Over the last 15 years we have depaved over 350,000 square feet, which infiltrates stormwater runoff from over 500,000 square feet of adjacent impervious area. All together, our work has reduced annual stormwater runoff by over 23 million gallons!

In 2022 & so far in 2023, we have planted over 1600 trees, shrubs, and other native plants.
